The Alliance for Wise Energy Decisions (AWED) is an informal coalition of individuals and organizations interested in defending citizen’s rights by improving national, state, and local technical policies, worldwide. Our premise is that technical matters (like climate change, COVID-19, etc.) should be addressed by using Real Science.

A key element of AWED’s efforts is public education. Towards that end, every two weeks we put together a detailed Newsletter (a collection of recent relevant articles, reports and studies), to try to balance what is found in the mainstream media, about a wide range of national-interest issues. We believe that citizens can’t effectively defend their rights unless they are educated about the societal options we have.

To check out the last 14± years of our Newsletter, see this. For single years see: 2022, 2021, 2020. The purpose of this extensive compilation is to make it easier to search for pertinent studies, reports and articles on a specific topic (e.g. wind energy interference with the military). It is advisable to try multiple search words — e.g. military, army, navy, etc. (Search terms are case-insensitive on this PDF document.)

Note 1: The Newsletters complement what is on AWED websites: WiseEnergy.org, Election-Integrity.info and C19Science.info and my Substack on Critical Thinking.

Note 2: For links to other excellent sources of articles on Energy and Environmental matters please see the “Current News” page on our WiseEnergy.org website. See also our list of quality books on Climate Change and Energy.

Note 3: If you’d like your own personal (free) copy of this unique Media Balance Newsletter, please email John Droz [aaprjohn at northnet dot org] and simply ask.

Note 4: We originally verified that all the links below worked — but over time these can change. If you find any errors, please email John Droz [aaprjohn at northnet dot org] and we will try to make corrections. This is Revision: 12-18-22.

— Some Special Media Balance Reports —

COVID-19 —
C19Science.info (dozens of reports about COVID-19 by independent experts)

Elections —
Promoting American Election Integrity (ten major election reports, plus more)
Global Warming —

The Four Pillars Supporting Climate Change Claims (referencing 60± studies)
Climate Change: The Defense of CO2 (referencing 250± studies)
Taking the Wind Out of Climate Change (referencing 60± studies)
Sample Good Books on Climate Change

Wind Energy —

Multiple Reports on Industrial Wind Energy (and more on offshore wind here)
Taking the Wind Out of Climate Change (referencing 60± studies)
US Military vs a Political Fad
Wind Energy Interference of the Military: An Overview

Misc Energy —

Sample Good Books on Energy
“All of the Above” — Not a Good Idea
Solar Realities (and more here)
Offshore Fossil Fuel Exploration and Development: A Review Of Some Concerns
Michael Moore’s Movie: Planet of the Humans (not ours, but well worth seeing)

Science —

Science is a Process
The Scientific Method
Peer Review is Just Brass Plating — not a Gold Standard

Politics —

The Big Picture
The Russian/Chinese Plan to Bring Us Down

Public Relations —

Terminology: Some Deceptive Phrases — and Suggested Substitutes
Are Conservatives Winning or Losing?
Why Aren’t Conservatives Doing a Better Job of Public Relations?

Education —

The Relentless Attack on America
Education Emergency: Our Children (and Us) at Risk
The Importance of Teaching Science
Recommended Academic Curriculum Additions
